SUMMARY

Full-stack developer with two years of experience building, deploying, and running production web systems for government offices: records, workflows, dashboards, and integrations that replace paper and spreadsheets. Applies AI where it earns its place: voice interfaces, OCR-assisted data entry, and LLM-drafted mappings a person reviews.

EXPERIENCE

Full-Stack Developer

DepEd Region V

2025 – Present
Camarines Sur, Philippines

- Design, ship, and maintain the iRIMS-V suite: inventory across 13 divisions, library circulation, a Flutter app, and single sign-on.
- Built schema_mapper: publishes iRIMS-V records into LRMIS via an outbox; Gemini drafts field mappings, an admin approves.
- Own deployment, releases, and the Linux VPS infrastructure supporting production systems.
- Received the Full Stack Developer Award for contributions to a regional government system launch.

Web Systems Developer

DepEd Central Office, National Learning Resource Platform

2024 – 2025
Philippines

- Owned features on the national learning-resource platform: station hierarchy, allocation and distribution, role-based access.
- Delivered web applications end to end, including secure authentication, role management, workflow automation, and reporting.

Freelance Web Developer

Independent Engagements

Present
Philippines

- Built EDULEAVE for a DepEd division HR office, replacing paper leave cards with an auditable approval workflow.

IT Support Intern, Work Immersion

Local Government Unit of Pasacao

2019 – 2020
Pasacao, Philippines

- Resolved hardware and software issues and assisted the core IT team with network configuration.
