SUMMARY

Full-stack developer with two years of experience building, deploying, and supporting production web systems for government offices. Specializes in replacing manual paper-and-spreadsheet processes with reliable systems for records, workflows, dashboards, reporting, and integrations.

EXPERIENCE

Full-Stack Developer 2025 – Present
DepEd Region V *Camarines Sur, Philippines*

- Design, ship, and maintain regional production systems end to end, including learning-resource inventory and monitoring and library circulation.
- Own deployment, releases, and the Linux VPS infrastructure supporting production systems.
- Received the Full Stack Developer Award for contributions to a regional government system launch.

Web Systems Developer 2024 – 2025
DepEd Central Office, National Learning Resource Platform *Philippines*

- Owned features within the platform team for a national learning-resource system serving educational institutions nationwide.
- Delivered web applications end to end, including secure authentication, role management, workflow automation, and reporting.

Freelance Web Developer Present
Independent Engagements *Philippines*

- Work directly with client offices across requirements gathering, development, deployment, and ongoing support; built EDULEAVE for a DepEd division HR office, replacing manual leave cards with an auditable digital workflow.

IT Support Intern, Work Immersion 2019 – 2020
Local Government Unit of Pasacao *Pasacao, Philippines*

- Resolved hardware and software issues and assisted the core IT team with network configuration.
