SUMMARY

Full-stack developer with two years of experience building, deploying, and supporting production web systems for government offices and private clients. Specializes in replacing manual paper-and-spreadsheet processes with reliable systems for records, workflows, bookings, dashboards, reporting, and integrations.

EXPERIENCE

Full-Stack Developer

DepEd Region V

2025 — Present
Camarines Sur, Philippines

- Design, ship, and maintain regional production systems end to end, including learning-resource inventory and monitoring and library circulation.
- Own deployment, releases, and the Linux VPS infrastructure supporting production systems.
- Received the Full Stack Developer Award for contributions to a regional government system launch.

Web Systems Developer

DepEd Central Office — National Learning Resource Platform

2024 — 2025
Philippines

- Owned features within the platform team for a national learning-resource system serving educational institutions nationwide.
- Delivered web applications end to end, including secure authentication, role management, workflow automation, and reporting.

Freelance Web Developer

Independent Engagements

Present
Philippines

- Work directly with client offices across requirements gathering, development, deployment, and ongoing support; built EDULEAVE for the HR unit of DepEd Naga, replacing manual leave cards with an auditable digital workflow.
- Built Eurasian, a resort operations platform for reservations, guest records, and management dashboards.

IT Support Intern — Work Immersion

Local Government Unit of Pasacao

2019 — 2020
Pasacao, Philippines

- Resolved hardware and software issues and assisted the core IT team with network configuration.
